Thinking Out Loud

By H. M. L., Jr.

When Max Stephan, the naturalized American traitor, swings, his heels clicking aimlessly in space will sound the beginning of a new era in America's treatment of fifth columnists, traitors, spies, saboeturs and other kindred turncuoat scum. The new treatment is simply hard justice calculated to hurriedly discourage all forms o treasonable activity.

Formely our treatment of this dangerous breed of enemy was like that lovingly administered by an overindulgent mother to an erring child. The rattlesnakes of spy and sabotage circles in World War I were merely given a short rest in comfortable American prisons. Shortly after the war was over, a magnanimous and forgiving democracy released them.

Thus we see that the peril to which spies and saboteurs were exposed was considerably less than that of their compatriots who served in uniform on the fighting fronts. The highest penalty at the battlefront was death—the only penalty on our home front—two or three years of enforced ease in an institution of restricted liberty.

Thus, the comparison with the battlefront, where hazards grade down from death through permanent disability and breakdowns to the wounds and minor wounds—such a comparison may have made spy work in America look pretty good to the self-seeking enemy individual.

The pay was good and the hazards were slight and the saboteur suffered few of the rigors endured by armies under the condition of war. So, it was presumably not difficult to secure ample numbers of qualified volunteers for work on good-hearted Uncle Sam.

This will no longer be the case. In enumerating the hazards of spy work in America as compared to employment in the Nazi-uniformed legions, there of course exists no penalty for spy work comparable in degree to the wounds and disastes of battle. However, we do have capital punishment. The prospect of death approaching as one swings convulsively from a gibbet, inhales the gas chamber's toxic fumes, or shivers with strange heat on the hot seat—is an unpleasant contrast to the disagreeable but honorable and frequently sudden and comparatively unexpected death on the battlefield.

So, in simple capital punishment, we do, after all, have an effective and terorizing weapon with which to combat the murky lure that spy work in the United States might hold for some unstrung Nazi fanatics. We have the weapon at hand. We have shown its cutting edge. It is going to cut, and the Axis will soon realize its sharpness. There will be a consequent detraction from the quality, quantity and effectiveness of their fifth column efforts.

R. R. McCUMBER STILL IN CRITICAL CONDITION HERE

The condition of Ralph R. McCumber, 58, Gold Flat resident who was shot Saturday night, officers said, by his father in law, Charles McFarland, 73, was still critical at the county hospital here today.

The hospital reported no improvement has been shown by McCumber since he was taken to the institution with the bullet wound in the chest.

n the meanwhile, McFarland is being held in the county jail here on an open charge pending the outcome of McCumber's wound. Oficers, who are continuing an investigation, said a murder charge will be filed against McFarland in the event of McCumber's death.

Hearing To Be Held On Co. Budget

The functions of Nevada County government during the fiscal year 1942-43 will cost $579,238 as compared to $548,798.77 during the last fiscal year.

This is revealed in the preliminary county budget, made public by Auditor R. N. McCormack.

The Board of Supervisors will meet on Thursday, August 20th at 10 o'clock a. m. in the courthouse for the purpose of considering the preliminary budget.

Any person desiring to appear for or against any of the allotments as set out in the budget are invited to attend the meeting and discuss it before final approval of the budget which must be made on or before August 30th. Copies of the preliminary budget can be obtained at McCormack's office.

The tax rate, in spite of the increase in county governmental costs, will be the same as the last fiscal year. The tax rate is $1.60 per $100 valuation.

General governmental functions will require $500,234 during the 1942-43 fiscal year, requiring a tax rate of $1.30. Salaries will total $61,850, for which the tax rate is 24 cents per $100 valuation. Junior College tuition will require $10,914, requiring a tax rrae of five cents and the Veterans Buildings fund has been set at $5,950, for which the tax rate is one cent.

The amount required to be raised by taxation to carry on county governmental functions will be $262,645.64.

Although the county tax rate is $1.60 per $100 valuation school taxes will bring that figure higher. The Nevada City Elementary School District tax for interest and debt redemtion will be 18 cents per $100 valuation. The Nevada City High School District tax will be 40 cents per $100 valuation.

On top of that there is a tax of 80 cents per $100 valuation for the Nevada City Elementary School District, as required in the budget and a 52 cents per $100 valuation tax for the Nevada City High School.

So Nevada Cityans will pay a total of $3.50 per $100 valuation in taxes, exclusive of the city taxes.

612 MEXICAN LABORERS SIGN UP FOR FARM WORK IN U. S.

SACRAMENTO, Aug. 12.—(UP)—The state department expressed "gratification" today at the announcement by the Mexican secretary of labor in Mexico City that 612 Mexican laborers had expressed a desire to go to the United States and had signed up for such work.

The group was the first in our sister republic to register for farm work in this country under an agreement announced officiall only last week.

WARREN OFFERS ECONOMY PROGRAM

As the second step in a broad program of economy and tax reduction which he plans to inaugurate as governor, Attorney General Earl Warren announced today that if elected he will seek immediate action by the legislature to have the state take over the counties' share of old age pension costs, thereby enabling the counties to reduce property tax rates an average of 24 cents per $100 as assessed valuation.

This phase of his program, Mr. Warren said, would make possible a tax saving of more than $17,000,000 a year for California home owners, farmers and other common propety taxpayers.

In his first tax reduction statement several days ago, Attorney General Warren announced that he favored immediate repeal of the state personal income tax. The saving to income taxpayers—roughly $20,000,000 a year—coupled with the $17,000,000 slash in property taxes proposed in his statement today would make possible a total tax reduction of $37,000,000 a year.

The non-partisan candidate for governor, in his statement today, again charged the Olson adminisration with reckless waste of public funds and declared that "if Governor Olson was dealing fairly with the people, he would call a special session of the state legislature immediatel and have the state take over the counties' share of old age pension costs at once, so that the saving could be reflected in the new tax rates which are now being determined."

Warren's statement follows:

"Due to business and industrial expansion resulting from the war, state tax revenues exceed state expenditures during the fiscal year just ended by nearly $70,000,000, according to the state controller's report. During the current fiscal year, it is probable that the excess of income over outgo will be as great as $100,000,000.

"This condition makes it both feasible and desirable that some measure of relief be accorded our taxpayers by reductions in state and local taxes which will serve as a partial offset to the drastic increases in federal taxes which have been occasioned by the war.

"I have previously stated that I favor immediate repeal of the state personal income tax, which will reduce the state tax load more than $20,000,000 a year. As a second step in this program of tax reduction, I shall recommend to the legislature next January, if I am elected governor, that the state take over the counties' share of the cost of old age pensions. This would accomplish a saving of more than $170,00,000 a year in local taxes and would make it possible for the counties to reduce property tax rates an average of 24 cents per $100 of assessed valuation.

"The legislature recognized the need for some such relief to local tax payers as early as the 1939 session, when it passed Assembly Bill 2870, which proposed to appropriate $6,700,000 to relieve the counties of approximately half of their share of the cost of old age pensions during that fiscal year. Governor Olson, however, whose creed seems to be "never give the taxpayer a break", pocket vetoed the bill.

"Again, at the 1941 session, the legislature passed Senate Bill 133 which would have transferred administration of unemployment relief to the counties, including generous state financial aid. This bill also would have increased the state's share of old age pension costs from 1/2 to 2/3 of the state and local cost remaining after the federal contribution. But this bill was likewise vetoed by Governor Olson.

"Now, I understand, Governor Olson has indicated that he favors the state taking over the counties' share of old age pension costs, but his acts belie his words. If the governor is sincere in that stand, he should call the legislature into special session and have the necessary legislation enacted at once, so that the counties could pass the saving along to their taxpayers now while new tax rates are being set."

Registration In State Drops Since 1940

SACRAMENTO, Aug. 12.—(UP)—There will be 3,751,296 Californians eligible to vote in the state primary election August 25, Secretary of State Paul Peek announced today in issuing a statement of registration and the official number of voting precincts.

Democrats with 2,252,901 registered, outnumbered Republicans by 899,994, Peek said. The GOP registration totaled 1,352,907.

The Townsendites topped the minor party registrations with 9,181. Others included Prohibitionists, 5,325, Progressives 4,368, Socialists, 2,475 and Communists 444.

Peek said there were 129 registrants of miscellaneous political faiths including 85 of the Commonwealth party. In addition, 123,571 registrants declined to state their political affiliations.

Although registration was below that of both the presidential primary and presidential general elections of 1940, Peek pointed out that it exceeds both the primary and general elections totals for 1938, the last held for general state offices.

Peek attributed the decline of 201,099 in registrations from the 1940 general election total to the failure of citizens to vote. He explained that under the California permanent registration law a citizen name is dropped from the rolls if he fails to cast a ballot at either the primary or general election. He must re-register to become eligible to vote.

Local Salvage Group, War Production Board Seeking Scrap Metals

THROW YOUR SCRAP INTO THE FIGHT!

The War Production Board and the Nevada City Civilian Defense Council salvage committee this week inaugurated a scrap metal drive to procure vital materials for the war effort and everyone is urged to cooperate in the plans to get every available bit of scrap into production.

Scrap most vitally required are scrap iron and steel, other metals of all kinds, old rubber, rags, manila rope, burlap bags. The exception for this area is waste paper and tin cans. Razor blades and glass are not needed, either.

Cooking fats may be disposed of to local butchers. The fats used in cooking should be strained and placed in solid containers.

Every item of scrap iron and steel will help. For instance an old radiator will provide scrap steel needed for seventeen .30 caliber rifles. One old lawn mower will help make six three inch shells and one useless tire will provide as much rubber as is used in 12 gas masks.

Justice of the Peace George Gildersleeve is chairman of the Nevada City salvage committee. He can be contacted at telephone 166 during the day if there is any doubt as to the type of materials needed for the war effort.

A Junk Rally Day for Nevada City has been set for August 29th. Meanwhile between now and that date local residents are asked to gather and segregate their scrap for sale or donation.

It is hoped Nevodo City will contribute a large share toward California's 600,000 ton scrap quota.

You are urged to search your attic, basement, garage, sheds and every place where old waste materials may be located. Don't overlook a single bit. It may not be of any value to you, but in this war business every ounce is valuable and must be secured if production is to continue on a 24 hour basis in the nation's armament program.

ELTON TOBIASSEN, MARJORIE BONIVERT WEDDING REVEALED

The marriage in Carson City, Nev., on June 14th of Miss Marjorie Bonivert of Grass Valle and Elton (Bub) Tobiassen of Nevada City has been revealed.

The bride hopes to soon join her husband at Winchester Bay in Oregon. Tobiassen is in the Coast Guard stationed there and it is possible the former Miss Bonivert will be able to live with her husband until he is assigned elsewhere.

The couple were accompanied to Reno by Tony Cartoscelli and Raymond (Smiles) Davis of this community. The marriage took place several weeks before Tobiassen entered service with the Coast Guard.

Elton is a son of Sheriff and Mrs. Carl J. Tobiassen. He is extremely popular and widely known in this community and two years ago gained nation wide fame by winning the 135 pound intercollegiate national boxing championship. At that time Elton was a student at the College of Agriculture at Davis.

Elton graduated from the Nevada City High School and while there was a star in football and basketball. For the past two years up until the time he joined the Coast Guard he was employed in various mines in this area.

Miss Bonivert, an attractive blond, is a daughter of Albert Bonivert of Grass Valley. She attended the Grass Valley High School.

GOOD FISHING SOUTH AND MIDDLE FORKS OF YUBA

Reports of good catches come from fishermen along the South and the Middle Forks of Yuba River, states the Sacramento Office of the National Automobile Club. Good fishing country is reached from Downieville and Sierra Cit, or via Nevada City and branching into the back country from Alleghany or North Bloomfield.

Caught in the Riffles

H. W. Hobbie will not be vice principal of the Nevada City High School this year. Hobbie has accepted a more lucrative position with a railroad company. It is reported Marie Fleck has decided to continue her school teaching career elsewhere. Miss Fleck was popular as a teacher at the high schol here last year.

The Spoilers, which opens at the Nevada Theatre here Sunday and continues through Tuesday, will give Nevada Cityans an opportunity to again see Engine No. 5, which for years made the Nevada City, Grass Valley, Colfax trip on the Nevada County Narrow Gauge Railroad. Engine No. 5 was sold to Universal City about six months ago and it is probable it will appear in other cinema productions from Hollywood.

No doubt Mike Solaro, who was engineer on No. 5 for years, will be in the audience during the showing of the Spoilers here to see how No. 5 acts in its screen debut.

Harlan (Shorty) Pearce can probably consider himself a very lucky man. During the past several years Pearce has worked in far away places. Just this week he retuned from Dutch Harbor and the day after arriving in Nevada City he was stricken ill and had to be operated upon at the Miners Hospital! The trouble was long standing. It would have been tough for Pearce had the emergency developed at Dutch Harbor.

Walt Johnson, who also had been at Dutch Harbor, has returned to Nevada City also. Johnson is awaiting his call into the army.

Bobbie Danos of Main Street had four stitches taken in a nose wound. A dog owned by Les Hubbard bit four year old Bobbie. The dog is under observation for rabies.

A Park Avenue resident is nursing black eyes and a cut orehead. It seems he stumbled over a cat and in falling knocked his wife's brick wall down with his head.

While her husband, Vic Manciu, goes off o war, Vernie Mancieu, formerly Vernie Deschwanden of this city, will be employed in Reno, Nev. Mrs. Manciu formerly worked for Frank Finnegan here and at the Tahoe National Forest office.

The Thinking Out Loud article in Monday's issue regarding R. G. Letourneaux struck a responsive chord in the mind of Mrs. Curran Heath. The Heaths know Letourneaux and were close riends of his nephew, who resided with the famous war machinery builder. So Mrs. Heath has dispatched a Nugget to the nephew, knowing he would enjoy reading an article printed about his uncle in so far away community as Nevada City.

It appears county non partisan office candidates are depending to a large extent on the absentee voters this year. One candidate already has sent 850 absent voters ballots applications to former residents of the county who still maintain their voting privileges here.

Al Sommers, safety engineer at Camp Beale, left here in a hurry this morning after receiving a report the hospital at the camp and other buildings were on fire.

Walter Cheery, manager of the Purity Store here for the past five or six years, will soon leave Nevada City to accept a better position.

William Wallace Mein of S. F. Memories of Old P. O.

William Wallace Mein in acknowledgment of the recent Postoffice History by Mrs. Douglass says in part: "History recorded brought back many memories and I want to thank you for the Nugget of August 3,

"The picture of the old postoffice recalls the days of the stages and we all remember Jimmy Hennessey and the stables across the street. The dust on the stages cannot be visualized by the youngsters of today.

Murder Charge Filed In Slaying Of Mine Worker

A murder charge has been filed against James Dewey Thompson, in Yuba County for the murder of his brother in law, Delbert Hull, 23, Lava Cap Mine employee.

Hull was wounded fatally with a charge from a .410 gage shot gun Sunday night during an argument over a board bill he is declared to have owed Thompson. The shooting took place near Wheatland.

The decision to file a murder charge against Thompson was reached by District Attorney Joseph L. Heenan o Yuba County following a day of intensive questioning of the principals and witnesses in the affair.

The interrogation developed the fact, officers said, the supposed Mrs. Hull is Miss Mary White Brooks, 20, of Grass Valley, who had posed for two months as Hull's bride. When first questioned she said she and Hull had been married in Reno, but later revealed she and Hull planned to be married on August 25th.

In addition to Miss White those who were questioned by District Attorney Heenan, were Mrs. Edward Bolin, wife of an employee of the Miners Foundry and Mrs. Thompson, wife of the accused man. Both are sisters of Hull. Blayne Morris, a neighbor, was also questioned.

Heenan revealed the story as he gathered it from those questioned indicated that Mr. and Mrs. Bolin, Miss White and Hull called at the Thompson home Sunday afternoon and the argument which climaxed in the shooting started soon after their arrival.

Morris told the district attorney he heard Thompson order Hull from the premises and threaten to shoot him if he returned. He said after Hull left the Thompson home, William E. Thompson, father of the man charged with murder, followed Hull down the road and tore the shirt from the younger man.

Hull's sister, Mrs. Bolin, called to him to return and get into the car, she told the district attorney and when Hull got back to the car he told his sister he was going into the house "to shake hands with Dewey, that it was bad luck to leave with hard feelings."

Both Mrs. Bolin and Morris said the argument was renewed when Hull reentered the house and he was shoved out of the door by Thompson who was wielding the shotgun as a club. They said Thompson shot from the doorway as Hull scrambled to his feet.

Miss White was asleep in the rear seat of the Bolin car and did not witness the shooting.

Mrs. Thompson, torn between grief over her brother's death and worry over her husband, held in jail for the shooting, was unable to give a coherent story.

JUST WONDERIN'

I wonder, as a great ship makes her way
Under dark skies and through a troubled sea,
With all lights dimmed and every moment tense
With unvoiced thoughts of grim expectancy,
How in an instant all is action there
When "Man your battle stations" is the cry
And scorning protests, queries and delays,
Each man leaps to his post to do or die.

I wonder if you are finding it difficult to regard our ship of state as a belligerent man o' war. I am, but that is the role assigned her by a fate which she by no means invited. At the present time, those in command are charting a difficult course through an enemy infested sea and for every one, from the greatest to the least among us, there is a battle station, whose importance none dares underestimate.

In the darkness of night and with all lights dimmed, a gallant ship plows her way through perilous waters. Suddenly the tense silence is shattered by the stentorian cry "man your battle stations". In stantly throughout that ship scenes of intense activity ensue as every officer and man springs to his post of duty and there stands ready to meet whatever may come of good or ill—stands ready to fight to the death if necessary, for his ship in which his hopes of happiness and liberty, even life itself are centered.

The grand old ship of state with all her priceless cargoes of human rights and liberties is in danger today—beset by treacherous and unworthy foes. "Man your battle stations!" That clarion cry has shattered our peaceful ways of life, but it strikes a responsive chord in every patriotic heart. Millions of us are already at our posts of duty—all branches of the army and navy, members of the Red Cross and kindred organizations, industrialists, workers, men and women in every walk of life, have responded nobly to the challenge and, of their loyalty to a just and righteous cause, there can exist no doubt.

For every one, the high, the low, the rich, the poor, the strong, the weak, the very old and the very young, a battle station waits. The services of all are needed and that need is great. Is yours a seemingly unimportant battle station? Do not think of it as such. There are important battle stations in our homes, shops, offices, schools and churches, and if we can find a battle station in no other place, there still remains the battle station of the mind and at this post, our individual will should be supreme.

Let's man the battle stations of the mind. That is something each one of us can do and the victories we achieve may bring greater results than we imagine. Let's dissipate the ugly rumors originated by the foe, let's annihilate the spear heads of prejudice and intolerance, let's dispel the poison gases of disunity. If we can do but little of spectacular and material worth, if we feel that our task is an obscure and limited one, we can, at all times and in all places guard the ramparts of our thoughts and man the battle stations of the mind, remembering that—"He who ruleth his spirit is greater than he who taketh a city."—A. Merriam Conner.

LIBERTY LIMERICKS

Said a lumberman named
Mr. Wood,
"If we'd work just as hard
as we could,
And all of us bought
The Bonds that we
ought—
We'd dispose of Herr Hitler for good!"

Help your county reach its War Bond quota . . . and help your country win the War. Chop 10% off your income and invest it in War Savings Bonds.

U. S. Treasury Dept.

NATIONAL FOREST TIMBER FOR SALE

Sealed bids will be received by the Forest Supervisor, Nevada City, California, up to and including Sept. 11, 1942, for all the live timber marked for cutting and all the merchantable dead timber located on an area embracing about 1000 acres within sections 22, 27, 28, 33 and 34, T. 19 N., R. 8 E., M. D. M., Tahoe National Forest, California, estimated to be 1650 M ft. b. m. of ponderosa and sugar pine, 250 M ft. b.m. of Douglas fir and 100 M ft. b. m. of white fir. The cutting of the white fir will be opeional with the purchaser, but bids on guaranteed footage of this species to be cut will be taken into consideration in making an award. No bid of less than $3.00 per M feet for ponderosa pine, $3.00 per M feet for sugar pine, $2.00 per M feet for Douglas fir, $.50 per M feet for white fir and 50 cents per M feet for material unmerchantable because of size, to be removed at the option of the purchaser, will be considered. In addition, the purchaser will be required to make deposits for sale area betterment at the rate of $.50 per M feet b. m. of the total scale of herchantable sawlogs of all species. $500.00 must be deposited with each bid, to be applied on the purchase price, refunded or retained in part as liquidated damages, according to conditions of sale. Before bids are submitted, full information concerning the timber, the conditions of sale, and the submission of bids should be obtained from the Forest Supervisor, Nevada City, California.
Aug. 13, 27.

COOLING ENGINE

Cool the automobile engine by shifting into second gear and going down the other side of the hill rather than by stopping at the top of the hill, is the advice issued by the Service Department of the National Automobile Club. The engine will cool twice as quickly by this time saving method.

It takes all the wool that goes into 25 average blankets to equip and clothe a soldier a year.

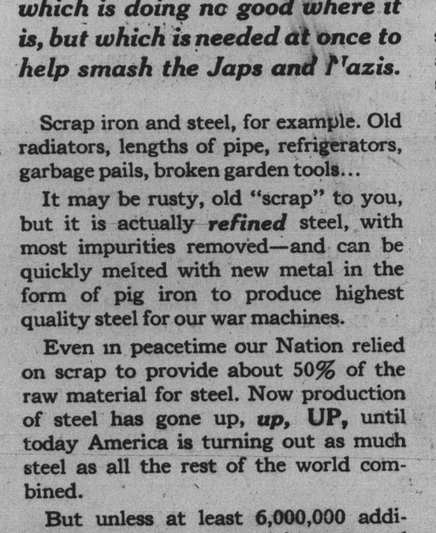
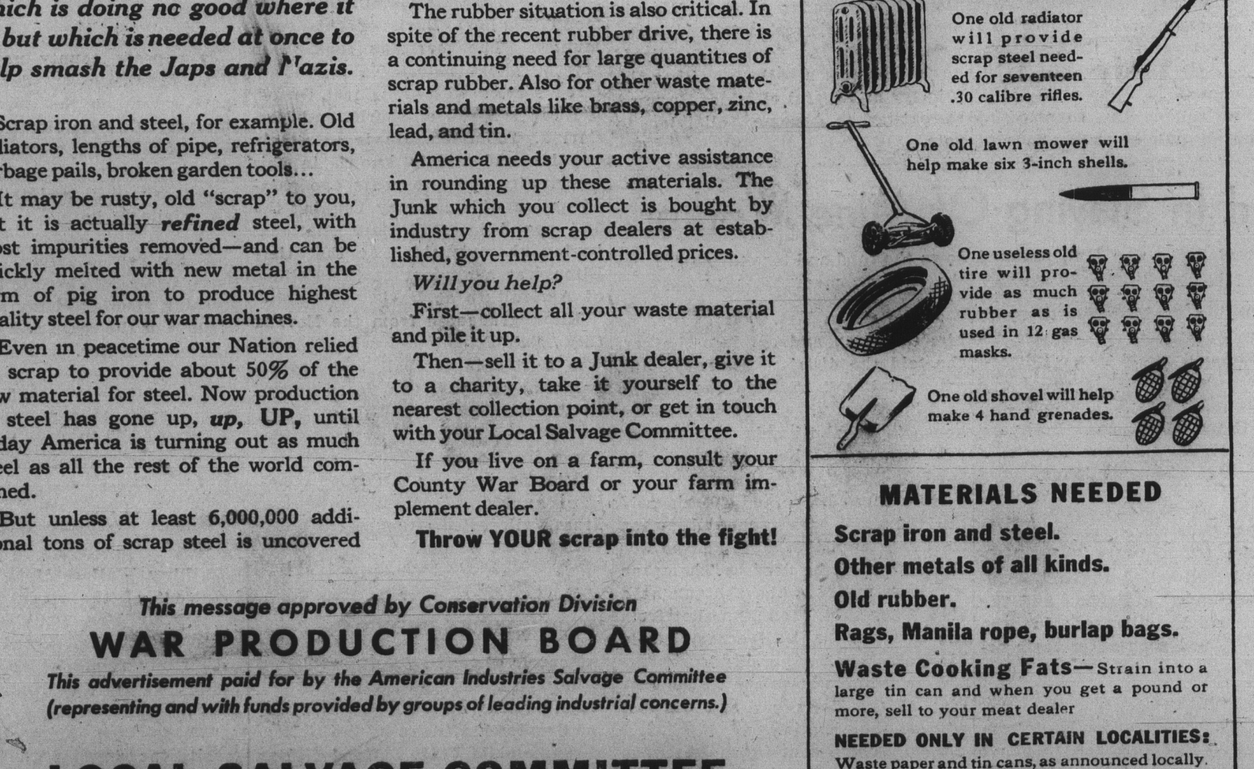
JUNK needed for War



"What's it good for?"
"Guns, tanks, and maybe part of a plane"



In the attics and cellars of homes, in garages, tool sheds, and on farms, is a lot of Junk which is doing no good where it is, but which is needed at once to help smash the Japs and Nazis.

Scrap iron and steel, for example. Old radiators, lengths of pipe, refrigerators, garbage pails, broken garden tools...

It may be rusty, old "scrap" to you, but it is actually *refined* steel, with most impurities removed—and can be quickly melted with new metal in the form of pig iron to produce highest quality steel for our war machines.

Even in peacetime our Nation relied on scrap to provide about 50% of the raw material for steel. Now production of steel has gone up, *up*, UP, until today America is turning out as much steel as all the rest of the world combined.

But unless at least 6,000,000 additional tons of scrap steel is uncovered promptly, the full rate of production cannot be attained or increased; the necessary tanks, guns, and ships cannot be produced.

The rubber situation is also critical. In spite of the recent rubber drive, there is a continuing need for large quantities of scrap rubber. Also for other waste materials and metals like brass, copper, zinc, lead, and tin.

America needs your active assistance in rounding up these materials. The Junk which you collect is bought by industry from scrap dealers at established, government-controlled prices.

Will you help?

First—collect all your waste material and pile it up.

Then—sell it to a Junk dealer, give it to a charity, take it yourself to the nearest collection point, or get in touch with your Local Salvage Committee.

If you live on a farm, consult your County War Board or your farm implement dealer.

Throw YOUR scrap into the fight!

JUNK MAKES FIGHTING WEAPONS

One old radiator will provide scrap steel needed for seventeen .30 calibre rifles.

One old lawn mower will help make six 3-inch shells.

One useless old tire will provide as much rubber as is used in 12 gas masks.

One old shovel will help make 4 hand grenades.

MATERIALS NEEDED

Scrap iron and steel.
Other metals of all kinds.
Old rubber.
Rags, Manila rope, burlap bags.
Waste Cooking Fats—Strain into a large tin can and when you get a pound or more, sell to your meat dealer

NEEDED ONLY IN CERTAIN LOCALITIES: Waste paper and tin cans, as announced locally.

NOT NEEDED at this time: Razor blades—glass.

LEGAL NOTICE

LEGAL NOTICE

United States Department of the Interior U. S. Land Office, Sacramento, California. Dated: August 4, 1942. M. A. 030718.

Notice is hereby given that Metal Products Holding Corporation, whose address is Galen Building, San Francisco, California, has made application for patent to the Teluride, White Quartz and Grizley No 4. Lodes, M. S. No. 6168 in the Meadow Lake Mining District, Nevada County, California, described as follows:

TELURIDE LODE: Beginning at Corner No. 1, which is located on a granite ledge 14x50 feet, 12 ft. above ground, marked "X-T-1-6168," from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M., bears S. 58° 39' 50" E. 844.67 ft. distant; thence S. 71° W. (Var. 18° 37' E.) 602.08 ft. to Corner No. 2, a granite stone 7x11x20 inches, set 8 in. in the ground and in a mound of stones, marked "T-?-6168"; thence N. 26° 43' W. (Var. 19° E.) 1490.64 feet to Corner No. 3, a granite stone 14x18x24 inches, set 10 in. in the ground in a mound of stones, marked "T-3-BL-1-6168"; thence N. 71° E. (Var. 18° 48' E.) 598.76 feet to Corner No. 4, which is identical with Corner No. 1 of the Grisley No. 2 Lode, this Survey 6168 herein previously described; thence S. 26° 50' 40" E. (Var. 18° 46' E) 1491.1 feet to Corner No. 1, the place of beginning.

Adjoining patented claim, as shown by the plat of survey, is the Kentucky Quartz Mine, Lot 38, survey number unknown, owner Frank Pauson & Sons; adjoining claims of this Survey 6168 are Edison, White Quartz and Big Lode.

GRIZLEY NO. 4 LODE: Beginning at Corner No. 1 of the Grizley No. 4 Lode, a granite rock 9.5x11x24 inches, set 7 in. in the ground and in a mound of stone, marked "G4-1-6168," from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M. bears S. 58° 07' W. 1225.15 feet distant; thence N. 31° 57' E. (Var. 18° 05' E.) 600 feet to Corner No. 2, a granite ledge 2x4 feet, 1 ft. above ground, marked "X-G4-2-6168"; thence N. 55° 23' W. (Var. 18° 03' E.) 1481.58 feet to Corner No. 3, which is identical with Corner No. 6 of the Grizley No 1 Lode of this Survey 6168 herein previously described; thence S. 31° 57' W. (Var. 18° E.) 600 feet to Corner No. 4, a granite rock 4x10x24 inches set 10 in. in the ground in a mound of stone, marked "G4-4-6168"; thence S. 55° 23' E. (Var. 17° 55' E.) 1481.58 feet to Corner No. 1, the place of beginning.

Adjoining and conflicting claims, as shown by the plat of survey, are the Eagle No. 2, Grizley No. 1, and White Quartz Lodes of this Survey No. 6168.

WHITE QUARTZ LODE: Beginning at Corner No. 1 of the White Quartz Lode, which is identical with the point for Corner No. 6 of patented Lot No. 38, the Kentucky Lode, on a granite ledge 8x75 feet, 16 ft. above ground, marked "X-WQ-1-6168-KQM-6-L-38 from which the quarter section corner of Sections 4 and 9, T. 17 N., R. 13 E., M. D. M. bears S. 5° 49' E. 925.46 feet distant; thence N. 30° 45' E. (Var. 18° 42' E.) 600 ft. to Corner No. 2, a granite rock 4x14x26 inches set 10 in. in the ground marked "WQ-2-6168"; thence N. 59° 28' 50" W. (Var. 17° 20' E.) 1494.74 feet to Corner No. 3, a granite rock 10x20 ft. 10 feet above ground marked "X-WQ-G1-2-6168"; thence S. 30° 45' W. (Var. 18° 11' E.) 600 feet to Corner No. 4, which is identical with Corner No. 5 of patented Lot 38, the Kentucky Lode, a granite stone 5x15x24 inches set 10 in. in the ground and in a mound of stone, marked "WQ-4-6168-KQM-5-Lot 38"; thence S. 59° 28' 50" E. 1494.74 feet to Corner No. 1, the place of beginning.

Adjoining claims, as shown by the plat of survey, are Kentucky Lode, Lot 38, and lot 40, U. S. Grant No. 1. Adjoining and conflicting claims as shown by the plat of survey, are Pullman Quartz Mine, Lot No. 37, claimant unknown, and Grizley No. 4, Grizley No. 1, Grizley No. 2 and Teluride this Survey 6168. All conflict with Lot 38, Kentucky Lode, is expressly excluded from this application.

Location notices are recorded in Book 33 of Mining Claims, pages 273, 274, 276 et seq of Official Records, Nevada County, California.

ELLIS PURLEE, Register.

Date of Last Publication October 12, 1942.

NOTICE

Nevada City, California, July 9, 1942

TO CHRIS N. LAUSTEN, his heirs and to all whom it may concern:

NOTICE IS HEREBY GIVEN: That the undersigned for over five years made and performed $100 worth of labor and improvements upon and for the benefit, development and improvement of the Golden Edna Placer Mining Claim. The location of this property is described in the office of the Recorder of the County of Nevada, State of California, in said County's records of Placer Claims in Volume 30 at page 266 thereof.

That said labor and improvements consisted of continuation of the tunnel 18 feet through solid rock; 100 feet open cut work and cleaning out old tunnel, during the years 1930-31-37-38-39-40, for the purpose of developing the said claims or group.

You are hereby further notified that if within ninety days after this notice by publication you or any other interested parties fail to contribute, your interest in said claim will be forfeited to become the property of the subscriber, your co-worker, under Section 2324 of the revised statutes of the United States and the amendments thereto. Signed,

ED. M. MARTINE,
EDNA A. MARTINE.

INFLATE TIRES EQUALLY

When the car begins to steer to right or left and is hard to hold in he road, the Public Safety Department of the National Automobile Club suggests that the air pressure in the front tires be examined. A difference of fifteen pounds pressure in the front tires will often cause the car to steer to the side with low pressure.

The alcohol equivalent of a pound of sugar would give us 47 shots at the Japs.

A night fighter needs 5000 units of Vitamin A a day.

NEWS IN RHYME

Over KJBS Daily at 12:30 P. M.
By Harley M. Leete, Jr.

We've either got to face the facts.
Or feel the victor's winning axe.
It's possible to lose this fight,
Says OWI—and it is right.
The Office of War Information,
Seeks to arouse and warn our
fighting nation.
In war as yet we're ankle deep:
We have a hero's debt to keep.
The debt incurred in Flanders' mud,
And so far paid in gallant blood.
The gift of freedom born of bravery,
The choice to fight 'gainst human
slavery.
It's an insult that the outcome
stands in doubt.
Whatever, these last years, has our
nation been about?
Well, enough's been done, that we
can win—
And that we will, through thick and
thin.
But every man and child must fight,
For at stake is all that's good and
right.
Awake, America—you've not
slept,
But a greater bargain must be kept.
Greater prices must be paid.
The base for greater victories laid.
Blood and sweat must be paid out:
War is pain—of that no doubt.
The price of victory—always high.
Is paid out as our heroes die;
Is paid out as our workers strain,
With all their mighty brawn and
brain.
Sacrafice on sacrifice—
Virtue bright must fight down vice.
Our whole nation must be strong,
To wreck the mighty force of
wrong.
Wrong waxes strong and always
shall,
Hold multitudes of men in thrall.
For us, with a system wrought for
good,
The greatest pain is understood.
What we fight threatens our whole
world,
May be into a chasm hurled.
So Americans—let each man fight—
With all his soul—to win for
right.

CHURCH SERVICES

CHRISTIAN SCIENCE SOCIETY

The Christian Science Society in Nevada City holds service at 114 Boulder Street every Sunday 11 a. m. Sunday School 9:45 a. m. A testimonial meeting is held the first Wednesday of each month at 8 p. m. The reading room at 117 Broad Street is open every day except Sundays and holidays from 2 p. m. to 4 p. m.

"Soul" will be the subject of the Lesson-Sermon Sunday, August 16, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston. The Golden Text will be: "My soul shall be joyful in the Lord: it shall rejoice in his salvation," (Psalms 35: 9.)

Sunday School at 10 a. m. Preaching service at 11 a. m. Organ prelude Miss Margaret Phariss. Sermon "Can We Be Really Christians in a World Like This?" pastor. The public is cordially invited. Young people's service at 7:30 p. m. Ten minutes of song service. Sermon "Seven Things Which Constitute a Normal Chrtisian Home." pastor. This service will be held in the Epworth League room where it is nice and cool and very comfortable. Week events: Bible study and prayer hour Tuesday at 7:30 p. m. We are studying the book of Acts.

Balancing of tires on cars is obsolutely necessary. Most tires are marked showing where they should be placed so that the tire mark and the tube valve stem meet. Balanced tires are a distinct advantage and economy in many ways.

ABsentees Must Apply For Ballot Before August 20th

Under the California Election Code all California registered voters have the right to vote by mail if they are to be absent from their home precincts on election day. Absentee ballots are available between August 5 and August 20 upon application to the county clerk of the county where the voter maintains his legal residence. The ballot can be marked on or before election day but it must be returned to the county clerk from whom it was secured before August 31. Before the marked ballot is returned to the county clerk it must be sworn to before a county clerk, a deputy county clerk, or a notary public. However, no charge may be made for this service if it is performed in California.

The application must be made and signed by the registered voter himself and cannot be made for him by anyone else.

In making application for an absentee ballot certain information must be supplied to the county clerk to whom the application is made. County clerks will spply application forms upon request, but a letter from the applicant setting forth the fact that he will be absent from his election precinct on election day, stating the election at which he wishes to vote, giving his present mailing address and also setting forth his registered address, will be adequate. The applicant's signature should be the same as that on his afidavit of registration.

JEEPS

If there's a surplus of jeeps when the war is over, the little "battle buggies" may find wide use on U. S. farms. Tests now being made show the jeep has "great post-war possibilities," though its low gear is too fast for plowing and its chassis too low for some row-crop operations.

DEHYDRATED MEAT PROVES SATISFACTORY IN TESTS

Dehydrated beef and pork which can be turned into satisfactory hamburger patties or meat loaves simply by adding water and cooking have now been produced at the University of California College of Agriculture.

Six months of tests went into production of the dehydrated meat which may soon be adopted by the Army and Navy. The tests were carried on by Dr. Agnes Fay Morgan, head of the home economics division, and Dr. Betty M. Watts, instructor in home economics. They were under the sponsorship of the Federal Bureau of Home Economics and in cooperation with the Western Regional Research Labortary in Albany, California.

The beef and pork were ground and dried raw. Oat flour was added to prevent the meat from turning rancid. Several problems still remain to be solved, according to Drs. Morgan and Watts, even though the ground meat is very satisfactory. Chief among these problems is that of drying large cuts of meat, such as roasts and steaks, and of determining the minimum water content the dried meat should have.

Man's capacities have never been measured; nor are we to judge of what he can do by any precedents, so little has been tried.—Henry David Thoreau.

The expectations of life depend upon diligence; and the mechanic that would perfect his work, must first sharpen his tools.—Confucius.

Oil on garage floors is not only dangerous but a positive danger to the life of tires. Oil soon rots the best tire. An old mop should always be handy around a garage to wipe any oil that leaks and drops to the floor.

The reward of one duty is the power to fulfill another — George

5000 More Japenese Transferred From California To Arizona

The 5000 Japanese now in the Tulare Assembly Center, Tulare, California, will be transferred to the Gila River Relocation Center at Sacaton, Arizona, beginning on August 20, it was announced today by the Wartime Civil Control Administration.

Composed of Japanese from Ventura, Santa Barbara, San Luis Obispo and Los Angeles counties, the evacuees will be moved in groups of 600 or more each day until all have been transported.

This order makes the third transferring Japanese from Assembly Centers to the Gila River Relocation Center. The first movement consisted of 40 persons from Pinedale on July 22 and the cecond affected approximately 3100 persons at Turlock, a movement still in progress.

CHARITY OF THOUGHT

The charities that soothe, and heal and bless, lie scattered at the feet of men like flowers.—Wordsworth.

A little thought and a little kindness are often worth more than a great deal of money—Ruskin.

Judge not without knowledge, nor without necessit, and never without charity.—Dr. Alex. Whyte.

Where the motive to do right exists, and the majority of one's acts are right, we should avoid referring to past mistakes.—Mary Baker Eddy.

Try to do to others as your would have them do to you, and do not be discouraged if they fail some times.

It will be found that he who is most charitable in his judgment is generally the least unjust.—Southey

A fully loaded Flying Fortress uses as much gasoline in an hour as Mr. and Mrs. America's auto does in six months.

A *well-painted* home will withstand the ravages of time and weather almost indefinitely. But don't forget that a *well*-painted home is *not* one painted with low-quality paint. It is one painted with *good* paint. HOUSE OF REPRESENTATIVES U. S.
Part of Congressional Record—Free
FOREST FIRE CONTROL VITAL TO NATIONAL DEFENSE
REMARKS OF
HON. HARRY L. ENGLEBRIGHT
of California
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 21, 1942
Harry L. Englebright M.C.
Mr Rudolph R Henderson
CALIFORNIA
Congressional Record
United States of America
PROCEEDINGS AND DEBATES OF THE 77th CONGRESS, SECOND SESSION
Forest Fire Control Vital to National Defense
REMARKS OF
HON. HARRY L. ENGLEBRIGHT
OF CALIFORNIA
IN THE HOUSE OF REPRESENTATIVES
Tuesday, April 21, 1942
Mr. ENGLEBRIGHT. Mr. Speaker, the protection of the forest lands of the United States from destructive ravages of fire is a vital part of our national defense program.
There are over 600,000,000 acres of forest lands in private and public holding in the Nation. Mr. Speaker, I urge that the Congress appropriate $19,500,000 to be used in protecting these lands against fire.
Careful estimates have been prepared by our various departments of Government of the funds needed to protect our forests during the wartime situation from fire which may be caused either from sabotage or natural causes. These are funds required over and above normal peacetime protection needs. The $19,500,000 covers the protection of critical State and private forests, those under administration of the Forest Service under the Department of Agriculture and those under the Department of the Interior; in other words, it is a Nation-wide program of protection needs, covering defense facilities and key timber areas regardless of ownership. These estimates were carefully prepared, area by area, and State by State, and after making a survey of the whole emergency situation. Estimates were figured for each particular problem area. They were classified under three headings, namely:
First. Funds needed to protect from fire those strategic defense facilities such as maneuver areas, ordnance plants, air bases, power and water lines, located in foresied areas. The estimates do not include costs for protection inside of the plants themselves.
Second. Funds needed to protect timber-producing areas. In other those timber tracts feeding pulpwood to mills
The Forest Service is now cooperating with 42 forested States under authorization of the Federal Clarke-McNary law. Federal cooperation with the States is not a new activity—in fact, it first started back in 1911 under the Weeks law. This would not mean setting up any new State organizations but merely enabling them to strengthen their fleid force to meet the war
NATURE OF
On the Pacific
I live in the
County, Calif., a region in which today a vast array of war industries is concentrated, swept over 220,000 acres in 12 days and necessitated the drafting of farm and civilian fire fighters for miles around. It was 32 miles long and 12 miles wide. Five major watersheds vital to the water supply of eight cities and towns were burned, and power, telephone.

GRASS VALLEY

SOME IDEALS--

Must be part of the stock in trade of every funeral director who expects to make for himself a name in the profession.

Realizing this, we long ago rounded up into concrete form the ideals back of this organization, and have kept them in mind all the time we have been serving the people of this vicinity.
